..... We Build the equipment !

We convert your expectations in to reality !!

Automation Solutions

# DYNAMIC

## Engineering and Solutions

An ISO 9001 : 2015 Certified Company

### Nozzle Pipe And Flange Welding Machine

#### Features :

1. Automation of Nozzle pipe to Flange welding
2. Superior quality of weld joint
3. No need of skilled labour
4. Consistent welding quality
5. Increase in productivity
6. Ease of operation
7. Extremely Economical

#### Specifications:

Mounting of flange or pipe- On chuck or Fixture on Face plate  
Live Centre for job centering and location provided.

Description	Unit	Specification
Chuck Diameter	mm	200
Face plate diameter	mm	350
Maximum length of pipe that can be (External welding)	mm	600
Maximum length of pipe that can be (Internal welding)	mm	350
Loading/Unloading of the job		Manually
Input Supply	V.A.C	230

**Stop!**

Still using old,  
Manual, Time  
consuming process ?

**Go** for DE & S

developed efficient,  
automatic, safe, time  
saving equipment  
and relax!
